BRIDGING THE BORDERS BETWEEN

COVID-19 Active Cases have increased over the past week. Initially the number of remaining (active) cases was 626 as of 20-Nov-2020 and today the number of Active Cases now stands at 1075

Bulawayo has recorded the most number of new cases over the past 7-days. Matabeleland North is trailing behind followed by Mashonaland West. New cases are still on the rise in the western region of the country

Other Provinces have some slight increases in the number of active cases with Masvingo, Manicaland and Mashonaland East Provinces maintaining a low record in the past 7-days.

The number of Active Cases begin to spike. With an increase of over 400+ active cases within the last 7-days.
